### PRINCIPAL'S CORNER

**Our dear students, Parents and staff.**

We had a successful vetting exercise for the proposed ministerial positions. Promises were made, but for those that make it, we demand of you one thing- execution.

We will continue our work in implementing positive behavioral change. Our commitment remains to strive to teach and provide our learners with knowledge, skills and mindset necessary to have a successful future. We will encourage and teach curiosity, problem solving and instill a life-long love for learning.

I am hugely impressed by your commitment towards learning and participating in the school activities, which include outside catering, music and drama rehearsals in preparation for celebrating GES@10. The cultural, sporting and other successes of all of our students and staff will be proudly celebrated together ahead.

### ALUMNI CORNER

Greeting dear parents, staff at JSBI, Current and former Students, My name is Elizabeth Tibamanya a former student of the institute.

Words can't express how grateful I am to the institute as it has greatly impacted my life. While at the institute I did a Diploma in Food Production Management which course has greatly helped in my day to day running of personal business and at my job. The institute not only trains in academics but also teaches or trains student how to live outside books thus bring out a student who is ready to face life as it is. The staff are committed and very friendly thus enabling a learner to understand better.

### STUDENT'S CORNER

**EVERYTHING WILL COME IF ONE CAN WAIT.**

Dear students, your school life may not be that good as you would wish it be at the moment but it doesn't mean that it's the end of the journey.

There is more to life than what you may be having right now or more of what you're experiencing. We need more patience, courage and confidence so as to create the kind of future that we may all wish to have.

We can archive it all but only if we're a little more patient.
