

PRINCIPAL'S CORNER

Dear young Chefs.

Every year on October 20th, International Chef Day is celebrated to commemorate the art and skill of chefs worldwide. In honor of this day, I wish you all the best in your endeavours. At JSBI this day reminds us of the importance of nurturing talent in our daily lives. Being a chef is all about being creative with the food you cook and redefining your dishes in a better way. Chef has the power to infuse simple food with great taste and make everything taste better. Culinary skills can be learned but the passion for cooking comes from within. We are proud to be the best in producing great Chefs.

Mr. Smax Kakungulu (Principal)

THEME OF THE WEEK

"Cooking demands respect for the gifts of the earth.
It is a form of worship, a way of giving thanks."
